

AZOMITE® SOIL PRODUCTS, LLC FACT SHEET

IMPROVE PERFORMANCE FROM THE GROUND UP

OUR MISSION

To improve the human condition with the unique and natural properties of AZOMITE®

OUR COMPANY

AZOMITE Mineral Products, Inc., located in Nephi, UT, was founded in 1988, though the deposit was discovered in the 1940s. We currently manufacture and distribute products both domestically and internationally in the crop, greenhouse, hydroponic, turf & ornamental, and compost and potting soil markets. For more details on the company and our great line of products, please visit **Azomite.com**.

WHAT IS AZOMITE®?

AZOMITE® is a uniquely natural mineral product mined near Nephi, Utah. For more than seventy years, crop producers have used AZOMITE® to support plant growth and vitality, increasing crop yields and quality. AZOMITE® is virtually odorless, easy to handle and store, and can be applied alone or in product blends to enhance soil quality, and crop/plant yield, quality, stress tolerance, and return on investment.

KEY PRODUCT FACTS

- 100% naturally-derived soil amendment and fertilizer
- Organic Materials Review Institute (OMRI) listed for use in certified organic production
- Contains minerals that can improve a plant's natural ability to handle disease and other stresses, while increasing capacity to withstand drought and temperature stresses
- Available in Micronized, Field Grade, and Granulated forms
